

## Napoleon's Coronation - a group activity for five students

**Tasks:** a) Please describe the painting to four partners (who do not see it). Start with the background and then move to the centre.

b) Restage Napoleon's coronation. The person with the picture is the stage director. He gives directions to the others without showing them the picture. As there are only four actors, the stage director must carefully choose which persons from the picture he thinks are most important and should be included in the scene as staged by his team.
